# VERTICAL FOREST LARGE

Going vertical, an ongoing trend in apartment living and gardening. The vertical forest is the new must-have launched in 2020.

A solution to free up space.

Unique and simple solution to turn any balcony railing or wall into a vertical lush oasis, now in different sizes.

---

## for whom?

Young urban, with small city gardens or with balconies.

Comfortable with the classic touch and open to new concepts within this layout

Always looking for ways to green up their outdoor areas (big and small).

# CORSICA VERTICAL FOREST LARGE
